### **Brennan Earns PSE's Energy Efficiency Action Award for 4<sup>th</sup> Consecutive Year**

SEATTLE, WASH. -- For the fourth year in a row, Puget Sound Energy has honored Brennan Heating & Air Conditioning's commitment to energy efficiency and energy-saving solutions for homeowners throughout Washington.

Brennan was one of three local contractors honored by Puget Sound Energy for their hard work and dedication in helping energy customers take advantage of PSE incentives to make their homes more energy efficient.

Brennan and two other Seattle-area contractors installed the most residential energy-efficient products eligible for PSE rebates in 2010. Brennan won the PSE award for the fourth year in a row.

Washington state's oldest local energy utility, Puget Sound Energy serves more than 1 million electric customers and 750,000 natural gas customers in 11 counties.

"Winning Energy Efficiency Action awards year after year is a testament to the great service these local contractors provide for our energy customers," said Cal Shirley, Vice President of Energy Efficiency Services for PSE. "We are honored to recognize them for their commitment to helping our customers use our incentives to make immediate and long-lasting energy-efficient home improvements."

Brennan earned the distinction for its outstanding performance in helping residential customers save electricity and natural gas. Brennan is part of PSE's Contractor Referral Service, a network of local, independent contractors pre-screened by the utility to perform residential customer work that may qualify for PSE rebates.

*Brennan Heating and Air Conditioning is a heating and air conditioning contractor serving the greater Puget Sound. In business since 1987, the company focuses on residential heating and cooling systems and offers service and installation of furnaces, air conditioners, heat pumps, hydronic systems, indoor air quality products, gas logs and fireplace inserts.*
